Communities & Forums

Where data engineers connect and troubleshoot

Communities

Part of the [Resources Library](#) — [SQL Engineering Handbook](#)

Where to ask a question that a search engine can't quite answer, or to see how other people are actually debugging their own queries in real time.

Community	Platform	Best For	Free / Paid
r/SQL	Reddit	General SQL questions, career discussion, casual troubleshooting	Free
r/dataengineering	Reddit	Broader data-platform and pipeline discussion, tool comparisons, career threads	Free
dbt Community Slack	Slack	Analytics engineering-specific discussion, direct access to dbt Labs staff and experienced practitioners	Free
Database Administrators Stack Exchange	Stack Exchange	Precise, well-moderated Q&A for specific technical database problems	Free
PostgreSQL Mailing Lists (pgsql-general)	Mailing list	Direct access to the PostgreSQL core community, including contributors	Free

[!NOTE] Read a community's pinned rules/FAQ before posting — SQL communities in particular have low tolerance for "please debug my entire query" posts with no attempt shown first.
